Introduction

The role of a Business Analyst (BA) is full of variety and is broad in scope. This certificate introduces a range of concepts, approaches and techniques that are relevant in business analysis today.

This certificate provides a foundation for the range of BCS Practitioner Certificates in various Business Analysis related specialisms and may be used as the knowledge-based specialist module in the BCS Diploma in Business Analysis.

Assessment Objectives

Upon completion, learners should be able to demonstrate knowledge and understanding of:

- The role and competencies of a Business Analyst.
- The strategic context for business analysis and the BA service framework.
- How to investigate the current and target business states.
- Defining a solution and preparing a business case.
- Eliciting and managing requirements.
- Delivering a solution.

Target Audience

Job roles relevant to this certification include:

- Business Analyst
- Junior Business Analyst
- Change Manager
- Project Manager

Eligibility for the Examination

There are no pre-requisites for entry to the examination, although candidates should be prepared to be assessed in line with the objectives listed in the previous section. Candidates can study for the certificate by:

- Using our self-study material (approximately 20 hours)
- Attending our instructor-led BCS accredited training course (3-days)

Duration and Format of the Examination

The format for the examination is a supervised 60-minute multiple choice assessment. The examination is closed book i.e. no materials can be taken into the examination room. The pass mark is 26/40 (65%).

Additional time for Candidates Requiring Reasonable Adjustments

Candidates may request additional time if they require reasonable adjustments. Please refer to the reasonable adjustments policy for detailed information on how and when to apply.

Additional time for Candidates Whose Native Language is not that of the Examination

If the examination is taken in a language that is not the candidate's native / official language then they are entitled to 25% extra time.

If the examination is taken in a language that is not the candidate's native / official language then they are entitled to use their own paper language dictionary (whose purpose is translation between the examination language and another national language) during the examination. Electronic versions of dictionaries will not be allowed into the examination room.

Syllabus

For each top-level area of the syllabus a percentage and K level is identified. The percentage is the exam coverage and the K level identifies the maximum level of knowledge that may be examined for that area.

1. What is Business Analysis (5%: K2)

- Describe the business change lifecycle
- List the following principles of business analysis:
 - Root causes not symptoms
 - Business improvement not IT system change
 - Options not solutions
 - Feasible, contributing requirements, not meeting all requests
 - Entire business change lifecycle, not just requirements definition
